### FOR IMMEDIATE RELEASE

## STATE OF NEVADA AWARDS CONTRACT TO TRANSLATION PLUS *Translation Plus selected as a Preferred Translation Service Provider*

**Hackensack, April 20th, 2005.** Translation Plus, Inc., a 14-year old full-service translation company headquartered in Hackensack, NJ, announces that it has signed a contract with the State of Nevada for translation services. The contract, signed in March 2005, provides for translation services into multiple languages as the need arises.

Nevada continues to be the fastest growing state in the country, and with that growth sometimes comes the need to provide translation services. The Nevada State Purchasing Division saw a need to contract with quality companies that are able to provide these services, sometimes with very short notice. By using an approved, contracted company, State agencies will be better able to service residents and businesses with translation needs, allowing an improved level of training and information in all areas.

"We are very pleased to have been selected for this important and sustained outreach effort, and we look forward to combine our translations expertise with our cultural consulting services, which examine the need to adapt content to the cultural values of non-English speaking communities", explained Elisabete Miranda, President of Translation Plus.

### **About Translation Plus, Inc.**

Translation *Plus* is a global translation service provider with over 14 years experience delivering accurate, timely and culturally sensitive translations to state and federal government organizations and companies in key industrial sectors such as healthcare, manufacturing, pharmaceutical, technology, financial services, education, training, labor and membership organizations, energy and transportation. The company has developed the knowledge and readiness to understand, translate and render in the target language the material entrusted to their care. Clients trust that all languages provided to them respect the intent and content of the original communication. To learn more, visit [www.translationplus.com](http://www.translationplus.com).
