

## State of New Jersey Translation Services

Translation Plus is the prime contractor for the provision of written language translation services to all New Jersey State Agencies. This contract was awarded as a result of competitive bidding that included evaluation of the accuracy and overall quality of sample translations provided by the nine finalist bidders. This evaluation was performed by committees that included native foreign language speakers knowledgeable in the specific sample translation disciplines. Our industry leading accuracy levels were decisively validated in this competition as shown in the chart on the right. We were rated best in all six categories that were evaluated with a combined score that was 42% higher than the average bidder and 28% higher than the next closest bidder.

Accurate translation insures that readers understand your message. *This eliminates wasted time that individuals in your agency spend explaining, correcting, and double handling things due to confusing documentation.*

**Our HIGHEST rated service is available to all state agencies at the same price as the lower rated alternate source.**
